## HEPTOL SPLITS IS "IT."

Thinking people now realize that dosing the system with Calomel, Pills and other strong purgatives is a grave mistake and very injurious. The physical organs occasionally become tired and fail to respond to the duties of nature, thereby clogging the system and then a stimulative laxative is required to remove the accumulated poisons and to again start in motion the vital machinery; for this purpose some mild non-injurious remedy should be used. That is what

## LOCAL OPTION LAW

State Revenue Agent Points Out Methods to Enforce.

### ADVISES OFFICIALS

He Says the Law Can Be Enforced by Injunctions Under the Statutes. He also Demands Proceedings Against the Lawyers.

Austin, Sept. 25.—State Revenue Agent J. D. Cunningham has sent out the following letter:

"Austin, Tex., Sept. 24.—To the District and County Attorneys in the State: Dear Sirs—You will pardon me for calling your attention to a few statutes of the state, to which, if the attention of your district judge was called in a proper way, and the statute expressly makes it your duty so to do, a writ of injunction could be obtained which would save expense to the state and facilitate prosecutions for certain offenses.

"In counties containing local option, where the courts are laden and burdened with information and indictments for violations of local option and occupation tax laws, if the district attorney or county attorney would take the same evidence upon which the indictment was based and ask for a writ of injunction in behalf of the state under article 3015, Revised Statutes, the law would be more effectually enforced. This writ is a statutory right given the state to enforce a revenue law, and is cumulative of all other remedies (see Art. 3016, Revised Statutes, and Art. 311, Penal Code, and Hiller vs. Alvarado, 20 S. W., 1003, where the supreme court has held that all the remedies may be applied at the same time and in different courts against an individual until the tax is paid).

"This law above referred to is appropriate and applicable also to lawyers and every other taxpayer that treats with impunity the occupation tax law. It is the imperative duty of the district judge, when asked by the district or county attorney in the proper way, to grant a writ of injunction against any lawyer practicing in his court who has failed to pay his tax. It is the district court that licenses a lawyer (see Art. 255, Revised Statutes, and Art. 113, Penal Code), making it a condition precedent to his practicing law that he pay his tax, and when the showing is made before your district judge that the lawyer practicing before him is delinquent he can withhold the right from him to practice law until the tax is paid. This is urgent, as not one-third of the lawyers of the state are paying their tax.

"I know it is unpleasant for you, but I conceive it my duty to call your attention to this law, that expense necessary to indictments may be saved to the state, and it is a clear-cut, near way to the enforcement of the law. Will you aid me? Let me hear from you. J. D. CUNNINGHAM, "State Revenue Agent."

### Williamstown Breakers Started.

### Express Messenger Accidentally Shot.

Paris, Tex., Sept. 25.—James Warlick of this city, who is an express messenger between Galveston and Purcell, I. T., is at home on a lay off on account of an accident a few nights ago at Marietta, I. T. A 22-calibre rifle had been sent by express and was left loaded. In taking it out of the car at Marietta the hammer struck the door, causing it to discharge. The bullet took effect in his foot.

## SPANIARDS HONORABLE.

Paying an Old Claim That Had Been Wiped Out by War.

Washington, Sept. 25.—The treasury department has begun the distribution of \$28,500, the sum received from the government of Spain as one of the annual payments of indemnity due under the treaty of 1834. The continuation of these payments is regarded as a marked evidence of the high sense of honor cherished by the Spanish people in meeting an obligation.

About 1818 some American merchant ships were seized and destroyed by Spanish national vessels, and when the matter was brought before a tribunal, an award was made in favor of the Americans for the amount of their losses. The principal was converted by a curious Spanish method in perpetual rentes and the Spanish government has met the interest on these with great regularity ever since the treaty of 1834.

By a rule of international law, war absolutely extinguishes treaties previously existing between the principals; but the Spanish government did not regard itself as thus relieved by its recent war with the United States, and the only discomfort to which the scrip holders were subjected was in a slight deferment of two payments during the war.

### A SPIRITED CONTEST.

Democrats of Connecticut in a Fight as to Platform and Nominations.

New Haven, Conn., Sept. 25.—With the prospect of a spirited fractional battle over the enforcement of the Kansas City platform and a close contest for the head of the state ticket, 600 delegates, representing the Democratic party, assembled in state convention here to-day. The program includes the nomination of candidates for various state offices, a candidate for the new office of congressman-at-large, choice of the new state central committee and the adoption of a platform for the campaign. When delegates went into session the contest between the supporters of Melbert, Cary and Hild, and Mayor Chas. Thayer of Norwich for gubernatorial nomination, was still in doubt and the platform situation equally unsettled.

### A GERMAN CONVICTED.

Given Ten Years on a Charge of Treachery in South Africa.

London, Sept. 25.—A dispatch from Cape Town says Max Ernest Henschel, a German subject has been convicted of treachery and sentenced by a military court at Pretoria to ten years imprisonment at hard labor.

The evidence in the case showed that last March after having taken the oath of neutrality, Henschel started for Germany, carrying with him a number of Kaffir curiosities among which were found, when the curiosities were examined at the frontier, certain documents addressed by Commander Beyers to former President Kruger and Dr. Leyds, the Boer representative in Europe.

The prisoner pleaded ignorance as to the contents of the documents, but admitted that he had been promised \$5,000 for delivering them.

## DYNAMITED A HOTEL

Golden Eagle House at Washington  
a Complete Wreck.

### GUESTS ALL ESCAPE

The Proprietor and His Wife Injured  
and the Man Who Used the Ex-  
plosive a Suicide—Revenge  
Is the Only Cause.

Washington, Sept. 25.—The Golden  
Eagle hotel, on the corner of New Jer-  
sey avenue and D street, was dynamit-  
ed at 4:30 o'clock this morning. It is  
alleged, by Frank McKee, one of the  
guests, who subsequently committed  
suicide. Between twenty and thirty  
guests were thrown from their beds  
by the explosion, but only the proprie-  
tor, Louis Brandt, and his wife were  
injured, the latter seriously.

The building was blown off its foun-  
dation, the falling wreckage crashed  
through to the basement leaving the  
structure as if wrecked by a tornado.  
Every pane of glass in the building and  
the adjoining structures were broken.  
The explosion called out the fire de-  
partment.

The affair is involved in some mys-  
tery. The proprietor gave a banquet  
Wednesday night in honor of his wife,  
who had just returned from Germany  
and McKee was a guest. During the  
evening McKee and Brandt quarrelled  
over the former's attentions toward  
Mrs. Brandt and McKee left the hotel  
with threats of revenge. He returned  
about 4 o'clock, and, it is said, exploded  
dynamite in the room above that  
occupied by Brandt and his wife, sub-  
sequently shooting himself in the head.  
McKee was about 28 years of age  
and was in fairly good circumstances.  
He came here several years ago from  
Philadelphia. A member of the Brandt  
family states he lost considerable money  
at races recently and had acted ir-  
rationally. He said he was employed  
at one time in the navy yard here.

### WILL RESIST DISCHARGE.

Governor Does Not Propose to Let Old  
Confederates Be Thrown Out.

Austin, Sept. 25.—Governor Sayers  
has determined to take care of the old  
Confederate soldiers. A few days ago  
the board of medical examiners of the  
Confederate home recommended the  
discharge of eighteen inmates, as un-  
der the law they were able to make a  
living. The governor has no criticism  
to make of the action of the board, but  
will do all he can to prevent the old  
soldiers being thrown out on the world.  
He requested Captain King, superin-  
tendent of the home, to call a meeting  
of the board of managers at his office  
Oct. 6 to see if means cannot be de-  
vised under the law to retain the  
eighteen inmates of the home. The  
governor is a veteran himself, and does  
not care to have his comrades thrown  
upon the world at this time of life.

### INSURGENTS REPULSED.

United States Marines Protect a Colum-  
bian Officer on Panama Train.

Washington, Sept. 25.—The navy de-  
partment has received the following  
telegram from Commander McLean  
of the Cincinnati:

"Colon, Sept. 25.—Wednesday after-  
noon 300 insurgents attempted to board  
the train when about leaving Empire  
station and capture a Colombian offi-  
cer, a passenger from Colon to Panama.  
A marine knocked an insurgent officer  
off with the butt of his musket. Guards  
trained a Colt gun on them, but did  
not fire as they fled."

### Street Car Men Make Demand.

New Orleans, Sept. 25.—The street  
car men have submitted to the New  
Orleans Railroad company a new set  
of demands, embracing an eight-hour  
day and 25 cents per hour, with a  
straight run; recognition of the union;  
head pitman \$80 per month, other pit-  
men \$60 per month; car washers \$50  
per month; pitmen and car washers to  
have three days off every month. Con-  
ductors and motormen are now receiv-  
ing 18 cents per hour on a basis of ten-  
hour work day. An answer is demand-  
ed by 3 p. m. Saturday. If no answer  
is received all members of the Car-  
men's union will go out on strike.  
Electric workers promise the carmen  
support.

### Rushing Pacific Cable.

San Francisco, Sept. 25.—"Within  
eighty days messages will pass over  
the Pacific cable between San Fran-  
cisco and Honolulu." This positive  
statement is made by Richard W. Dey,  
the local representative of Clarence H.  
Mackey. "The steamer Silverton, with  
the cable on board," continued Mr.  
Dey, "is due at this port in sixty days.  
Fourteen days will be allowed for the  
trip to Honolulu. The other end of the  
cable may be carried ashore at the  
Hawaiian capital and dispatches pass-  
ed over it early in December."

### Number of Convicts Killed.

Austin, Sept. 25.—Notwithstanding  
the report of the legislative committee  
that convicts were "shot down like  
dogs" during Sayer's administration,  
the records show fifteen killed during  
Sayer's administration; 37 during Cul-  
bertson's; 30 during Hogg's; 30 during  
Ross' and 28 during Ireland's.

## MORE RIOTING.

Striking Miners Giving Officials Much Trouble in Pennsylvania

Wilkesbarre, Pa., Sept. 25.—Of the ten anthracite coal producing companies of Pennsylvania, state troops are camped in five. Despite the presence of the troops in these districts, rioting and general lawlessness continued in the entire hard coal territory from Forest City, Susquehanna county, on the north to Williamstown, Dauphin county on the south, a distance of more than 100 miles.

The section of the strike region in the vicinity of Forest City which has been comparatively quiet ever since the strike began, is greatly wrought up by crowds of strikers interfering with and beating men who had returned to work, and as a result Sheriff Maxey of Susquehanna county has asked Governor Stone for troops to assist him and other civil authorities to preserve the peace. At present there are four full regiments, two companies of another and two troops of cavalry in the field.

While there has been no big general riot, the disturbances have been of such a serious nature as to cause the authorities much apprehension. Every effort is being made by the sheriffs of the several counties affected and the troops to prevent disturbances from growing to such an extent as to cause bloodshed. Reports are coming in from every section that non-union men and others are being either shot or clubbed. Houses of workmen have been burned or dynamited, and attempts have been made to hold up coal trains or derail them.

Coal is being shipped from many parts of the coal fields to market, but compared with the normal output the quantity is insignificant. The output for this week will be considerably less than the average output of one day, which is about 800,000 tons. The strikers claim that very little of the coal is freshly mined and that it is mostly coal washed from the coal banks. President Mitchell had no comment to make on the movement of the troops into Luzerne county. He said the general strike situation is unchanged.

## MONEY STRINGENCY.

National Banks' Deposits May Be Increased to Full Value of Bonds.

Washington, Sept. 25.—While Secretary of the Treasury Shaw has made no announcement of his intention to employ further means to relieve the

stringency in the money market, it is known that he has under consideration the advisability of increasing the amounts of the government's funds on deposit at national bank depositories to the full market value of the bonds on deposit with the government.

At present government funds to the amount of the par value of the bonds on deposit are placed in the banks. If the proposed scheme should be adopted by Secretary Shaw it would increase materially the amount of public money on deposit with the banks, thus relieving the stringency by the increased amounts.

## Boundary Line Agreement Signed.

Washington, Sept. 25.—A telegram received at the department of state from Mr. Hutchinson, United States charge d'affaires at Santiago, Chile, announces that the ratifications of the treaty defining boundaries and limiting armaments and naval construction between Chile and the Argentine Republic were exchanged at Santiago on Tuesday. The Chilean government is turning its attention to national improvements, railways, bridges, education and to Chilean commercial relations with foreign states. General prosperity seems assured for Chile.

## Boles for Henderson's Place.

Waterloo, Iowa, Sept. 25.—Former Governor Horace Boles has made public his letter accepting the Democratic nomination for Congress in the Third Iowa district, now represented by Speaker Henderson. The letter is devoted entirely to the trusts and the tariff, and the only adequate remedy for the evil with which trusts are charged is declared to be the removal of the tariff on trust made products. He declares the trust question to be the most important that now agitates the public mind.

## Will Contest Stratton's Will.

Denver, Col., Sept. 25.—I. Harry Stratton of Pasadena, Cal., after a conference in this city with his attorneys, decided to contest the will of his father, Winfield S. Stratton, which left the bulk of his estate, estimated to be worth from \$10,000,000 to \$12,000,000 for the establishment of a home for poor sick people at Colorado Springs. Under the provisions of the will Young Stratton forfeits the \$50,000 which his father bequeathed to him by making a contest.

#### REFUSED TO REDUCE.

The Bonds of Alleged Bondsmen Will Re-  
main at \$45,000.

St. Louis, Mo., Sept. 25.—In the cir-  
cuit court here Judge Douglass re-  
fused to grant the application of Otto  
Schumacher, John Helms and John H.  
Schnetler for a reduction of bond from  
\$45,000 to a lower figure. The reduc-  
tion was sought by the three men in  
order to make possible their release  
from jail.

Later Judge Douglass made a simi-  
lar adverse ruling on the application of  
William H. Tamblin of Cleveland,  
Ohio, the fourth of the indicted form-  
er delegates now in the city jail, for a  
reduction of his bond to a lower figure  
than \$30,000. The four men were  
then taken from jail and arraigned be-  
fore Judge Douglass. The reading of  
the warrants charging all four with  
bribery and all except Tamblin with  
perjury was waived by the men and  
all pleaded not guilty. October 6 was  
then named as the date for the trials  
of the four prisoners. They will not  
be tried then, however, but the cases  
will be reset for later dates after pre-  
liminary motions of their attorneys  
have been disposed of.

Warrants for several arrests are ex-  
pected to follow immediately after the  
issuance of the report of the grand  
jury next Monday. It is believed the  
grand jury will indicate in its report a  
condition of municipal affairs in St.  
Louis even more startling than the re-  
cent disclosures have been.

#### ROOT THE ORATOR.

He Talks of the Philippines and Cuba,  
but Omits Tariff and Trusts.

Peoria, Ill., Sept. 25.—Elihu Root,  
secretary of war, was the speaker  
Wednesday night at the meeting of  
the Illinois Republican clubs. The  
Coliseum was packed to the doors and  
time after time the secretary was vo-  
ciferously applauded. His address was  
confined entirely to the recent troubles  
in the Philippines and Cuba, and not  
once during the evening did he men-  
tion the tariff or the trusts. In open-  
ing his address he paid a high compli-  
ment to the late Wm. McKinley and  
to some army and naval officials.

He said the work of pacification and  
construction in Cuba has been com-  
pleted. Military government there  
had faithfully given effect to the hu-  
man purposes of the American people.  
With sincere kindness our officers had  
helped the Cubans to take steps neces-  
sary to the establishment of their  
own constitutional government. Of  
all the executive problems following in  
the train of the Spanish war the prob-  
lem of the Philippines alone remained.

The secretary said the Philippines  
became the property of the United  
States by right of treaty and pur-  
chase. The secretary spent some time  
in telling of the attacks made upon  
the administration by different mem-  
bers of the senate and house.

#### MADE TO APOLOGIZE.

Venezuela Makes Amends for Wrongful-  
ly Displaying American Flag.

Washington, Sept. 25.—The singular  
circumstance reported by the German  
merchant in the cablegram from Port  
of Spain was explained by the recep-  
tion of two cablegrams from United  
States Minister Bowen at Caracas at  
the state department.

The first dispatch stated that the  
Venezuelan gunboat Restaurador had  
approached Ciudad Bolivar, flying the  
American flag. She did not lower the  
flag until she was very close to the  
shore when she opened fire upon the  
insurgents from her position, creating  
great consternation. When the Res-  
taurador returned to LaGuayra, the  
fact was reported to Minister Bowen  
who indignantly demanded a complete  
apology from the Venezuelan govern-  
ment and also that the flag of the  
United States be saluted by the offend-  
ing ship. The conditions were prompt-  
ly complied with.

#### Katy Brakeman Injured.

Waxahatche, Tex., Sept. 25.—While

switching near the compress, Brake-  
man Jack Paris of Dallas was the vic-  
tim of an accident which came near  
proving fatal. He had just made a  
coupling and stepped to the side of the  
cotton platform. The platform was  
so close to the track that he was  
caught by the car and rolled between  
the two a short distance. He is badly  
injured.

#### AMBASSADOR CHANGES.

Tower Goes to Germany and Storer Will  
Go to Russia.

Washington, Sept. 25.—The appoint-  
ment of Charlemagne Tower ambassa-  
dor to Germany to succeed Mr. White  
is confirmed here.

Mr. Tower's acceptance of the Ger-  
man mission will create a vacancy in  
the ambassadorship to Russia which is  
now held by him. It is regarded quite  
likely he will, in turn be succeeded by  
Hon. Bellamy Storer, the present min-  
ister to Spain.

It intimated further the vacancy of  
the Spanish mission may be filled by  
appointment of Henry White, present  
secretary of the embassy to Great Bri-  
tain.

#### Tower New German Ambassador.

Berlin, Sept. 25.—President Roose-  
velt has chosen Charlemagne Tower as  
ambassador to Germany. Notifications  
of this decision and that Mr. White's  
letters of recall had been issued by  
the state department has reached the  
foreign office here.

#### PRESIDENT IMPROVES.

Ten Days Time He Will Be Completely  
Over His Ailment.

Washington, Sept. 25.—Secretary  
Cortelyou at 9 o'clock Wednesday  
night made the following statement  
concerning President Roosevelt:

"The president's physicians report  
that he stood the trip home very well  
and it is believed that the local inflam-  
matory symptoms will subside in a  
week or ten days if the leg is kept ab-  
solutely at rest."

President Roosevelt returned to  
Washington at 6:30 o'clock Wednes-  
day night from Indianapolis, where he  
was compelled to abandon his north-  
west trip because of an abscess on his  
leg, which developed as a result of the  
trolley accident at Pittsfield, Mass.  
He stood the journey from Indianapo-  
lis remarkably well, and when he  
was carried in a wheel chair from the  
railroad car to his carriage he was in  
excellent spirits, and appeared to be  
free from any pain. With Mrs.  
Roosevelt, the president was driven  
directly to the temporary White  
House in Jackson Place, where he will  
remain until the wound is healed and  
he is able to again be on his feet. The  
president was taken to his room on  
the second floor of the house and  
made comfortable and his wound  
dressed. Later he was reported to be  
resting easily and the expectation is  
that within ten days the president will  
be himself again.

#### PRESIDENT BETTER.

Physicians Believe His Recovery Will Be  
Speedy Unless Complicated.

Washington, Sept. 25.—President  
Roosevelt passed a comfortable night  
and ate breakfast with great relish  
this morning. After breakfast Dr.  
Rixey, Dr. O'Reilly and Dr. Lung made  
an examination of the wound and re-  
ported it in satisfactory condition.  
They expect the inflammation will be  
allayed with complications. Absolute  
quiet is enjoined upon the distinguish-  
ed patient. There was a slight rise in  
the president's temperature Wednes-  
day night after he reached the tem-  
porary White House. This is attribut-  
able to the excitement incident to the  
removal from the train and is regard-  
ed as entirely natural in the circum-  
stances. The president is in excellent  
spirits, but acquiesced in the decision  
of his physicians for absolute repose.  
The announcement is made that he  
will see no visitors save members of  
his cabinet, and then only upon the  
most important business.

It is the desire of the president that  
the public be informed fully concern-  
ing his condition, but there is natural  
antipathy against the issuance of bul-  
letins, lest the gravity of the wound  
might be magnified. It is not unlikely,  
however, that Secretary Cortelyou oc-  
casionally may issue an official state-  
ment if for no other reason than to  
silence disquieting rumors.

Possible complications can arise only  
if it is later developed the bone of his  
leg is injured, but such is not now an-  
ticipated.

#### STUDENTS RIOTOUS.

Those of University of California Carry  
Their Carousals Too Far.

Berkeley, Cal., Sept. 25.—As a result  
of the riotous diversion by students of  
the University of California one of  
their members, Winfield Reed, of San-  
ta Barbara, Cal., is in jail on the  
charge of felony and others are likely  
to be incarcerated. During the big  
rally to the football team about 500  
students took possession of a local  
train, put out the lights, turned on the  
hand brake and demolished the entire  
furnishings. Winfield Reed was de-  
tected in the act of putting on the air  
brake and was arrested. Students  
rushed to his rescue and a desperate  
fight ensued, but Reed was finally  
placed in jail. The boys tried to storm  
the place, but were repulsed. President  
Wheeler of the university said he saw  
no reason why the law should not take  
its course in Reed's case. The offense  
is considered serious.

#### Iron Workers Not Molested.

Lebanon, Pa., Sept. 25.—President  
Sternberger of the American Iron and  
Steel company, expresses satisfaction  
over the situation at the plant which  
is now in operation. There is no more  
shooting at the negro iron workers in-  
side the stockade by outsiders. The  
presence of military is having a quiet-  
ing effect.

## HEPTOL SPLITS IS "IT."

Thinking people now realize that dosing the system with Calomel, Pills and other strong purgatives is a grave mistake and very injurious. The physical organs occasionally become tired and fail to respond to the duties of nature, thereby clogging the system and then a stimulative laxative is required to remove the accumulated poisons and to again start in motion the vital machinery; for this purpose some mild non-injurious remedy should be used. That is what

## LOCAL OPTION LAW

State Revenue Agent Points Out Methods to Enforce.

### ADVISES OFFICIALS

He Says the Law Can Be Enforced by Injunctions Under the Statutes. He also Demands Proceedings Against the Lawyers.

Austin, Sept. 25.—State Revenue Agent J. D. Cunningham has sent out the following letter:

"Austin, Tex., Sept. 24.—To the District and County Attorneys in the State: Dear Sirs—You will pardon me for calling your attention to a few statutes of the state, to which, if the attention of your district judge was called in a proper way, and the statute expressly makes it your duty so to do, a writ of injunction could be obtained which would save expense to the state and facilitate prosecutions for certain offenses.

"In counties containing local option, where the courts are laden and burdened with information and indictments for violations of local option and occupation tax laws, if the district attorney or county attorney would take the same evidence upon which the indictment was based and ask for a writ of injunction in behalf of the state under article 3015, Revised Statutes, the law would be more effectually enforced. This writ is a statutory right given the state to enforce a revenue law, and is cumulative of all other remedies (see Art. 3015, Revised Statutes, and Art. 311, Penal Code, and Hiller vs. Alvarado, 20 S. W., 1093, where the supreme court has held that all the remedies may be applied at the same time and in different courts against an individual until the tax is paid).

"This law above referred to is appropriate and applicable also to lawyers and every other taxpayer that treats with impunity the occupation tax law. It is the imperative duty of the district judge, when asked by the district or county attorney in the proper way, to grant a writ of injunction against any lawyer practicing in his court who has failed to pay his tax. It is the district court that licenses a lawyer (see Art. 255, Revised Statutes, and Art. 5049, Revised Statutes, and Art. 113, Penal Code), making it a condition precedent to his practicing law that he pay his tax, and when the showing is made before your district judge that the lawyer practicing before him is delinquent he can withhold the right from him to practice law until the tax is paid. This is urgent, as not one-third of the lawyers of the state are paying their tax.

"I know it is unpleasant for you, but I conceive it my duty to call your attention to this law, that expense necessary to indictments may be saved to the state, and it is a clear-cut, near way to the enforcement of the law. Will you aid me? Let me hear from you. J. D. CUNNINGHAM, "State Revenue Agent."

T. A 22-calibre rifle had been sent by express and was left loaded. In taking it out of the car at Marietta the hammer struck the door, causing it to discharge. The bullet took effect in his foot.

### Prisoner Badly Beaten.

### SPANIARDS HONORABLE.

Paying an Old Claim That Had Been Wiped Out by War.

Washington, Sept. 25.—The treasury department has begun the distribution of \$28,500, the sum received from the government of Spain as one of the annual payments of indemnity due under the treaty of 1834. The continuation of these payments is regarded as a marked evidence of the high sense of honor cherished by the Spanish people in meeting an obligation.

About 1818 some American merchant ships were seized and destroyed by Spanish national vessels, and when the matter was brought before a tribunal, an award was made in favor of the Americans for the amount of their losses. The principal was converted by a curious Spanish method in perpetual rentes and the Spanish government has met the interest on these with great regularity ever since the treaty of 1834.

By a rule of international law, war absolutely extinguishes treaties previously existing between the principals; but the Spanish government did not regard itself as thus relieved by its recent war with the United States, and the only discomfort to which the scrip holders were subjected was in a slight deferment of two payments during the war.

### A SPIRITED CONTEST.

Democrats of Connecticut in a Fight as to Platform and Nominations.

New Haven, Conn., Sept. 25.—With the prospect of a spirited fractional battle over the enforcement of the Kansas City platform and a close contest for the head of the state ticket, 600 delegates, representing the Democratic party, assembled in state convention here to-day. The program includes the nomination of candidates for various state offices, a candidate for the new office of congressional man-at-large, choice of the new state central committee and the adoption of a platform for the campaign. When delegates went into session the contest between the supporters of Melbert Cary and Hildesfeld, and Mayor Chas. Thayer of Norwich for gubernatorial nomination, was still in doubt and the platform situation equally unsettled.

### A GERMAN CONVICTED.

Given Ten Years on a Charge of Treachery in South Africa.

London, Sept. 25.—A dispatch from Cape Town says Max Ernest Henschel, a German subject has been convicted of treachery and sentenced by a military court at Pretoria to ten years imprisonment at hard labor.

The evidence in the case showed that last March after having taken the oath of neutrality, Henschel started for Germany, carrying with him a number of Kafir curiosities among which were found, when the curiosities were examined at the frontier, certain documents addressed by Commander Beyers to former President Kruger and Dr. Leyds, the Boer representative in Europe.

The prisoner pleaded ignorance as the contents of the documents, but admitted that he had been promised \$5,000 for delivering them.

ruined, but grandma lived too  
soon.

The state revenue agent has di-  
rected that the district attorneys  
of the state enjoin from practice  
those lawyers who do not pay their  
occupation tax.

An effort will be made to shut  
off the flow of water into the Beaum-  
ont oil field by plugging five or  
six abandoned wells from which  
it is believed the water comes.

The president's sore leg is said  
to be a campaign necessity. The  
party bosses couldn't afford to al-  
low him to spout about Cuban re-  
ciprocidity in the beet sugar coun-  
try, so the western tour was cut  
short.

Every day adds to the brilliant  
prospects for the Central Texas  
fair. The indications are that the  
entertainment will be on a much  
larger scale than last year, and  
that the attendance will be very  
large.

An Ohio school teacher made  
the white girls kiss the colored  
girls to stop them from fighting in  
the street. It all depends on where  
you are "at." It would be hard to  
think of an easier way to start a  
scrap in this country.

The engineering corps of the  
Rock Island railroad who have  
been running a survey north from  
Houston have connected with the  
located line from the north at a  
point in Grimes county, twenty  
miles from Navasota, and are en-  
camped awaiting orders.

That a bit of hog raising will oc-  
casionaly net a handsome return  
in coin—for a little expenditure in  
feeding and a few moments care  
per day—is evidenced this time by  
fact that this morning W. L. Steele  
sold to J. E. Farquhar 12 fat corn  
fed hogs for \$16.50 each. Just a  
cool \$196 for the twelve animals.  
And men whose business compels  
them to keep track of the live stock  
and provision markets assert that  
hogs will not cheapen for several  
years to come.—Navasota Exami-

### IMPORTANCE OF IRRIGATION.

Washington, D. C., Sept. 24.—  
The growing demand for water for  
irrigation purposes emphasizes the  
need of more detailed information  
concerning the results and methods  
of irrigation from artesian and sur-  
face waters. The census of 1899  
showed that the area irrigated from  
wells is greatly increasing, and  
that the results in most sections of  
the country are eminently satisfac-  
tory. Approximately, 136,000  
acres were irrigated in that year  
from wells, the value of the irrigat-  
ed crops ranging from \$50 to  
\$1,000 per acre.

In the humid states, well irriga-  
tion is utilized to supplement the  
insufficient rainfall during early  
spring and summer. In the west  
the water pumped from wells in-  
sures the home garden and the or-  
chard against total failure through a  
rainless season.

In California, Colorado, Louisi-  
ana, Florida and several other  
states the waters of flowing artesian  
wells are successfully applied  
to large areas, or are used to aug-  
ment the shortage in the streams  
during the irrigation season. In  
order to obtain the important facts  
relating to irrigation from these  
sources, the Census Office will soon  
send out inquiries to irrigators  
from wells, whose names were re-  
ported by the enumerators. As  
this list is not complete, the Direc-  
tor asks that irrigators who do not  
receive these inquiries will send  
their names to Mr. L. G. Powers,  
Chief Statistician, Census Office,  
Washington, D. C., and blanks  
will be mailed to them at once.

It is requested that all who re-  
ceive these inquiries answer the  
same as fully and accurately as  
possible, and promptly return to  
the Census Office.

### THE NEW BUNCO GAME.

Yesterday morning there was an  
outrageous trick perpetrated on the  
proprietor of the Bee Hive estab-  
lishment. Two men went in there.  
One bought and paid for \$10.55  
worth of clothing; the other bought  
and paid for a pair of shoes. Both  
packages were laid away behind  
the counter to be called for. In a  
short while the fellow who pur-  
chased the shoes came back, asked  
for the packages and received  
them. He had been out of the  
store about fifteen minutes when  
the clothing buyer called for his  
purchases. He had authorized no  
one to call for his goods, and de-  
manded the bundle or the money.  
He got the money.—Navasota Ex-  
aminer.

Five and a half cents for hogs  
on the hoof is easy money for the  
farmer, although the price should  
be higher considering the price of  
bacon. The man with plenty of  
corn, peas, alfalfa, etc., and good  
hogs has something coming to him  
the boll weevils can't touch.

## DYNAMITED A HOTEL

Golden Eagle House at Washington  
a Complete Wreck.

### GUESTS ALL ESCAPE

The Proprietor and His Wife Injured  
and the Man Who Used the Ex-  
plosive a Suicide—Revenge  
Is the Only Cause.

Washington, Sept. 25.—The Golden  
Eagle hotel, on the corner of New Jer-  
sey avenue and D street, was dynamit-  
ed at 4:30 o'clock this morning. It is  
alleged, by Frank McKee, one of the  
guests, who subsequently committed  
suicide. Between twenty and thirty  
guests were thrown from their beds  
by the explosion, but only the proprie-  
tor, Louis Brandt, and his wife were  
injured, the latter seriously.

The building was blown off its founda-  
tion, the falling wreckage crashed  
through to the basement leaving the  
structure as if wrecked by a tornado.  
Every pane of glass in the building and  
the adjoining structures were broken.  
The explosion called out the fire de-  
partment.

The affair is involved in some mys-  
tery. The proprietor gave a banquet  
Wednesday night in honor of his wife,  
who had just returned from Germany  
and McKee was a guest. During the  
evening McKee and Brandt quarrelled  
over the former's attentions toward  
Mrs. Brandt and McKee left the hotel  
with threats of revenge. He returned  
about 4 o'clock, and, it is said, exploded  
dynamite in the room above that  
occupied by Brandt and his wife, sub-  
sequently shooting himself in the head.

McKee was about 28 years of age  
and was in fairly good circumstances.  
He came here several years ago from  
Philadelphia. A member of the Brandt  
family states he lost considerable money  
at races recently and had acted ir-  
rationally. He said he was employed  
at one time in the navy yard here.

### WILL RESIST DISCHARGE.

Governor Does Not Propose to Let Old  
Confederates Be Thrown Out.

Austin, Sept. 25.—Governor Sayers  
has determined to take care of the old  
Confederate soldiers. A few days ago  
the board of medical examiners of the  
Confederate home recommended the  
discharge of eighteen inmates, as un-  
der the law they were able to make a  
living. The governor has no criticism  
to make of the action of the board, but  
will do all he can to prevent the old  
soldiers being thrown out on the world.  
He requested Captain King, superin-  
tendent of the home, to call a meeting  
of the board of managers at his office  
Oct. 6 to see if means cannot be de-  
vised under the law to retain the  
eighteen inmates of the home. The  
governor is a veteran himself, and does  
not care to have his comrades thrown  
upon the world at this time of life.

### INSURGENTS REPULSED.

United States Marines Protect a Colum-  
bian Officer on Panama Train.

Washington, Sept. 25.—The navy de-  
partment has received the following  
cablegram from Commander McLean  
of the Cincinnati:

"Colon, Sept. 25.—Wednesday after-  
noon 300 insurgents attempted to board  
the train when about leaving Empire  
station and capture a Colombian offi-  
cer, a passenger from Colon to Panama.  
A marine knocked an insurgent officer  
off with the butt of his musket. Guards  
trained a Colt gun on them, but did  
not fire as they fled."

### Street Car Men Make Demand.

New Orleans, Sept. 25.—The street  
car men have submitted to the New  
Orleans Railroad company a new set  
of demands, embracing an eight-hour  
day and 25 cents per hour, with a  
straight run; recognition of the union;  
head pitman \$80 per month, other pit-  
men \$60 per month; car washers \$50  
per month; pitmen and car washers to  
have three days off every month. Con-  
ductors and motormen are now receiv-  
ing 18 cents per hour on a basis of ten-  
hour work day. An answer is demand-  
ed by 3 p. m. Saturday. If no answer  
is received all members of the Car-  
men's union will go out on strike.  
Electric workers promise the carmen  
support.

### Rushing Pacific Cable.

San Francisco, Sept. 25.—"Within  
eighty days messages will pass over  
the Pacific cable between San Fran-  
cisco and Honolulu." This positive  
statement is made by Richard W. Dey,  
the local representative of Clarence H.  
Mackey. "The steamer Silverton, with  
the cable on board," continued Mr.  
Dey, "is due at this port in sixty days.  
Fourteen days will be allowed for the  
trip to Honolulu. The other end of the  
cable may be carried ashore at the  
Hawaiian capital and dispatches pass-  
ed over it early in December."

### Number of Convicts Killed.

Austin, Sept. 25.—Notwithstanding  
the report of the legislative committee  
that convicts were "shot down like  
dogs" during Sayer's administration,  
the records show fifteen killed during  
Sayer's administration; 37 during Cul-  
bertson's; 30 during Hogg's; 30 during  
Ross' and 28 during Ireland's.

### MORE RIOTING.

Striking Miners Giving Officials Much Trouble in Pennsylvania

Wilkesbarre, Pa., Sept. 25.—Of the ten anthracite coal producing companies of Pennsylvania, state troops are camped in five. Despite the presence of the troops in these districts, rioting and general lawlessness continued in the entire hard coal territory from Forest City, Susquehanna county, on the north to Williamstown, Dauphin county on the south, a distance of more than 100 miles.

The section of the strike region in the vicinity of Forest City which has been comparatively quiet ever since the strike began, is greatly wrought up by crowds of strikers interfering with and beating men who had returned to work, and as a result Sheriff Maxey of Susquehanna county has asked Governor Stone for troops to assist him and other civil authorities to preserve the peace. At present there are four full regiments, two companies of another and two troops of cavalry in the field.

While there has been no big general riot, the disturbances have been of such a serious nature as to cause the authorities much apprehension. Every effort is being made by the sheriffs of the several counties affected and the troops to prevent disturbances from growing to such an extent as to cause bloodshed. Reports are coming in from every section that non-union men and others are being either shot or clubbed. Houses of workmen have been burned or dynamited, and attempts have been made to hold up coal trains or derail them.

Coal is being shipped from many parts of the coal fields to market, but compared with the normal output the quantity is insignificant. The output for this week will be considerably less than the average output of one day, which is about 300,000 tons. The strikers claim that very little of the coal is freshly mined and that it is mostly coal washed from the culm banks. President Mitchell had no comment to make on the movement of the troops into Luzerne county. He said the general strike situation is unchanged.

### MONEY STRINGENCY.

National Banks' Deposits May Be Increased to Full Value of Bonds.

Washington, Sept. 25.—While Secretary of the Treasury Shaw has made no announcement of his intention to employ further means to relieve the

stringency in the money market, it is known that he has under consideration the advisability of increasing the amounts of the government's funds on deposit at national bank depositories to the full market value of the bonds on deposit with the government.

At present government funds to the amount of the par value of the bonds on deposit are placed in the banks. If the proposed scheme should be adopted by Secretary Shaw it would increase materially the amount of public money on deposit with the banks, thus relieving the stringency by the increased amounts.

### Boundary Line Agreement Signed.

Washington, Sept. 25.—A telegram received at the department of state from Mr. Hutchinson, United States charge d'affaires at Santiago, Chile, announces that the ratifications of the treaty defining boundaries and limiting armaments and naval construction between Chile and the Argentine Republic were exchanged at Santiago on Tuesday. The Chilean government is turning its attention to national improvements, railways, bridges, education and to Chilean commercial relations with foreign states. General prosperity seems assured for Chile.

### Boles for Henderson's Place.

Waterloo, Iowa, Sept. 25.—Former Governor Horace Boles has made public his letter accepting the Democratic nomination for Congress in the Third Iowa district, now represented by Speaker Henderson. The letter is devoted entirely to the trusts and the tariff, and the only adequate remedy for the evil with which trusts are charged is declared to be the removal of the tariff on trust made products. He declares the trust question to be the most important that now agitates the public mind.

### Will Contest Stratton's Will.

Denver, Col., Sept. 25.—I. Harry Stratton of Pasadena, Cal., after a conference in this city with his attorneys, decided to contest the will of his father, Winfield S. Stratton, which left the bulk of his estate, estimated to be worth from \$10,000,000 to \$12,000,000 for the establishment of a home for poor sick people at Colorado Springs. Under the provisions of the will Young Stratton forfeits the \$50,000 which his father bequeathed to him by making a contest.

### Pioneer Citizen Dead.

Waltha, I. T., Sept. 25.—William Brashears, 57 years old, and a respected citizen of Grove, I. T., died at the residence of W. H. Sutton at Grove. Mr. Brashears was born in Howard county, Mo., and has lived at Grove, I. T., for many years until last winter, when he went to Granite, Ark. He leaves a widow.

### REFUSED TO REDUCE.

The Bonds of Alleged Boudlers Will Re-  
main at \$45,000.

St. Louis, Mo., Sept. 25.—In the cir-  
cuit court here Judge Douglass re-  
fused to grant the application of Otto  
Schumacher, John Helms and John H.  
Schnetler for a reduction of bond from  
\$45,000 to a lower figure. The reduc-  
tion was sought by the three men in  
order to make possible their release  
from jail.

Later Judge Douglass made a sim-  
ilar adverse ruling on the application of  
William H. Tamblin of Cleveland,  
Ohio, the fourth of the indicted for-  
mer delegates now in the city jail, for  
a reduction of his bond to a lower fig-  
ure than \$30,000. The four men were  
then taken from jail and arraigned be-  
fore Judge Douglass. The reading of  
the warrants charging all four with  
bribery and all except Tamblin with  
perjury was waived by the men and  
all pleaded not guilty. October 6 was  
then named as the date for the trials  
of the four prisoners. They will not  
be tried then, however, but the cases  
will be reset for later dates after pre-  
liminary motions of their attorneys  
have been disposed of.

Warrants for several arrests are ex-  
pected to follow immediately after the  
issuance of the report of the grand  
jury next Monday. It is believed the  
grand jury will indicate in its report a  
condition of municipal affairs in St.  
Louis even more startling than the re-  
cent disclosures have been.

### ROOT THE ORATOR.

He Talks of the Philippines and Cuba,  
but Omits Tariff and Trusts.

Peoria, Ill., Sept. 25.—Elihu Root,  
secretary of war, was the speaker  
Wednesday night at the meeting of  
the Illinois Republican clubs. The  
Coliseum was packed to the doors and  
time after time the secretary was vo-  
ciferously applauded. His address was  
confined entirely to the recent troubles  
in the Philippines and Cuba, and not  
once during the evening did he men-  
tion the tariff or the trusts. In open-  
ing his address he paid a high compli-  
ment to the late Wm. McKinley and  
to some army and naval officials.

He said the work of pacification and  
construction in Cuba has been com-  
pleted. Military government there  
had faithfully given effect to the hu-  
man purposes of the American people.  
With sincere kindness our officers had  
helped the Cubans to take steps nec-  
essary to the establishment of their  
own constitutional government. Of  
all the executive problems following in  
the train of the Spanish war the prob-  
lem of the Philippines alone remained.  
The secretary said the Philippines  
became the property of the United  
States by right of treaty and pur-  
chase. The secretary spent some time  
in telling of the attacks made upon  
the administration by different mem-  
bers of the senate and house.

### MADE TO APOLOGIZE.

Venezuela Makes Amends for Wrongful-  
ly Displaying American Flag.

Washington, Sept. 25.—The singular  
circumstance reported by the German  
merchant in the cablegram from Port  
of Spain was explained by the recep-  
tion of two cablegrams from United  
States Minister Bowen at Caracas at  
the state department.

The first dispatch stated that the  
Venezuelan gunboat Restaurador had  
approached Ciudad Bolivar, flying the  
American flag. She did not lower the  
flag until she was very close to the  
shore when she opened fire upon the  
insurgents from her position, creating  
great consternation. When the Res-  
taurador returned to LaGuayra, the  
fact was reported to Minister Bowen  
who indignantly demanded a complete  
apology from the Venezuelan govern-  
ment and also that the flag of the  
United States be saluted by the offend-  
ing ship. The conditions were prompt-  
ly complied with.

### Katy Brakeman Injured.

Waxahachie, Tex., Sept. 25.—While  
the southbound Katy local freight was  
switching near the compress, Brake-  
man Jack Paris of Dallas was the vic-  
tim of an accident which came near  
proving fatal. He had just made a  
coupling and stepped to the side of the  
cotton platform. The platform was  
so close to the track that he was  
caught by the car and rolled between  
the two a short distance. He is badly  
injured.

### Poison Case at Sulphur Springs.

Sulphur Springs, Tex., Sept. 25.—  
The case of the state vs. Jobe Spence  
has been on trial since Monday, charg-  
ed with the murder of Montgomery by  
poison. Many of the most prominent  
people of the neighborhood are here  
either as witnesses or friends, besides  
expert doctors from Fort Worth, who  
examined the intestines of the de-  
ceased.

A. Gray was nominated here by the

### AMBASSADOR CHANGES.

Tower Goes to Germany and Storer Will  
Go to Russia.

Washington, Sept. 25.—The appoint-  
ment of Charlemagne Tower ambassa-  
dor to Germany to succeed Mr. White  
is confirmed here.

Mr. Tower's acceptance of the Ger-  
man mission will create a vacancy in  
the ambassadorship to Russia which is  
now held by him. It is regarded quite  
likely he will, in turn be succeeded by  
Hon. Bellamy Storer, the present min-  
ister to Spain.

It is intimated further the vacancy of  
the Spanish mission may be filled by  
appointment of Henry White, present  
secretary of the embassy to Great Brit-  
tain.

### Tower New German Ambassador.

Berlin, Sept. 25.—President Roose-  
velt has chosen Charlemagne Tower as  
ambassador to Germany. Notifications  
of this decision and that Mr. White's  
letters of recall had been issued by  
the state department has reached the  
foreign office here.

### PRESIDENT IMPROVES.

Ten Days Time He Will Be Completely  
Over His Ailment.

Washington, Sept. 25.—Secretary  
Cortelyou at 9 o'clock Wednesday  
night made the following statement  
concerning President Roosevelt:

"The president's physicians report  
that he stood the trip home very well  
and it is believed that the local inflam-  
matory symptoms will subside in a  
week or ten days if the leg is kept ab-  
solutely at rest."

President Roosevelt returned to  
Washington at 6:30 o'clock Wednes-  
day night from Indianapolis, where he  
was compelled to abandon his north-  
west trip because of an abscess on his  
leg, which developed as a result of the  
trolley accident at Pittsfield, Mass.  
He stood the journey from Indianap-  
olis remarkably well, and when he  
was carried in a wheel chair from the  
railroad car to his carriage he was in  
excellent spirits, and appeared to be  
free from any pain. With Mrs.  
Roosevelt, the president was driven  
directly to the temporary White  
House in Jackson Place, where he will  
remain until the wound is healed and  
he is able to again be on his feet. The  
president was taken to his room on  
the second floor of the house and  
made comfortable and his wound  
dressed. Later he was reported to be  
resting easily and the expectation is  
that within ten days the president will  
be himself again.

### PRESIDENT BETTER.

Physicians Believe His Recovery Will Be  
Speedy Unless Complicated.

Washington, Sept. 25.—President  
Roosevelt passed a comfortable night  
and ate breakfast with great relish  
this morning. After breakfast Dr.  
Rixey, Dr. O'Reilly and Dr. Lung made  
an examination of the wound and re-  
ported it in satisfactory condition.  
They expect the inflammation will be  
allayed with complications. Absolute  
quiet is enjoined upon the distinguish-  
ed patient. There was a slight rise in  
the president's temperature Wednes-  
day night after he reached the tem-  
porary White House. This is attribut-  
able to the excitement incident to the  
removal from the train and is regard-  
ed as entirely natural in the circum-  
stances. The president is in excellent  
spirits, but acquiesced in the decision  
of his physicians for absolute repos.  
The announcement is made that he  
will see no visitors save members of  
his cabinet, and then only upon the  
most important business.

It is the desire of the president that  
the public be informed fully concern-  
ing his condition, but there is natural  
antipathy against the issuance of bul-  
letins, lest the gravity of the wound  
might be magnified. It is not unlikely,  
however, that Secretary Cortelyou oc-  
casionally may issue an official state-  
ment if for no other reason than to  
silence disquieting rumors.

Possible complications can arise only  
if it is later developed the bone of his  
leg is injured, but such is not now an-  
ticipated.

### STUDENTS RIOTOUS.

Those of University of California Carry  
Their Carousals Too Far.

Berkeley, Cal., Sept. 25.—As a result  
of the riotous diversion by students of  
the University of California one of  
their members, Winfield Reed, of San-  
ta Barbara, Cal., is in jail on the  
charge of felony and others are likely  
to be incarcerated. During the big  
rally to the football team about 500  
students took possession of a local  
train, put out the lights, turned on the  
hand brake and demolished the entire  
furnishings. Winfield Reed was de-  
tected in the act of putting on the air  
brake and was arrested. Students  
rushed to his rescue and a desperate  
fight ensued, but Reed was finally  
placed in jail. The boys tried to storm  
the place, but were repulsed. President  
Wheeler of the university said he saw  
no reason why the law should not take  
its course in Reed's case. The offense  
is considered serious.

### Iron Workers Not Molested.

Lebanon, Pa., Sept. 25.—President  
Sternberger of the American Iron and  
Steel company, expresses satisfaction  
over the situation at the plant which  
is now in operation. There is no more  
shooting at the negro iron workers in-  
side the stockade by outsiders. The  
presence of military is having a quiet-  
ing effect.

### Arrested for Mail Robbery.

Vinita, I. T., Sept. 25.—Deputy  
United States Marshal Lindley has ar-  
rested a party on a charge of stealing  
a mail pouch at Checotah.
